Grant Writing Advice – Some Initial Web Resources

EPA Grant Writing Tutorial: http://www.epa.gov/seahome/grants/src/grant.htm
This is a free new online program intended to help those who are new to the federal grant application process generate more competitive proposals. Federal grant forms and procedures are in an easy-to-follow, interactive format, including detailed tips on completing standard forms, and a mock writing exercise, where users can compare their results with examples from a successful application.

Designing Successful Grant Proposals:
This resource details how to design layout and how to present a grant proposal. Chapter 1 is online.

Environmental Education Grant Links: http://www.eelink.net/grants-generalinformation.html
This site posts links to numerous environmental education related grant resources. The site also offers both grant strategy and more general advice on how to develop funding for environmental education programs.

Grant Writing Tips: http://www.seanet.com/~sylvie/grants.htm
This web site is maintained by an experienced and successful grant writer. She offers advice on grant planning issues, basic grant proposal elements, and other web links for grant seekers.

Online Assistance for Educators; Grants & Related Resources:
http://www.lib.msu.edu/harris23/grants/4edfrais.htm
This web site offers advice and links to other web resources for elementary and secondary school administrators and teachers who are seeking grant funding for educational programs.
